ABOUT US

Empire community care Australia was registered as a proprietary limited company under the Corporations Act 2001 in the State of Victoria. The company was formed with the purpose of providing a range of support services to people with disabilities, their families and carers. Whether you are looking to enjoy independence in your own home, want to get out and about, learn new skills or need to find someone you can rely on for specialist and nursing care, we are here to help you. These services are offered through partnerships with health and community service providers and through active engagement with families, carers, representatives and/or advocates.
